

INTERRUPTION FREE ADMINISTRATION

SmartPlant® Enabled

Perform SmartPlant® Instrumentation administration tasks without interruption by easily applying access control restrictions and disconnections.

Beaconsuite™ Access Control provides the ability to easily manage system and user access to active databases, virtually removing the possibility of data loss due to concurrent administrator activities and end user data manipulation.

The reporting and monitoring abilities of Access Control also provide valuable insight into user access and duration patterns within your SmartPlant® Instrumentation database.

BENEFITS

Save time and money by preventing excessive change orders due to database outages

Exclusive access to the database by preventing unwanted concurrent connections

Accurate monitoring and reporting of user and application access and duration

Increased security through observation of unauthorized user and software connections

Optimize licensing costs by identifying and removing unnecessary users from licensing

FEATURES

Display active user and application connection durations

Disconnect active sessions (globally or by user)

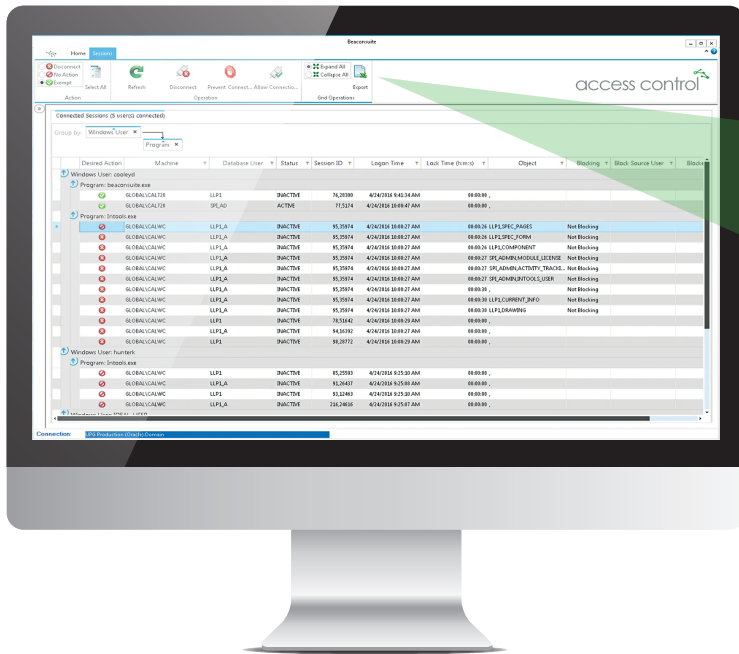

Prevent new user connections

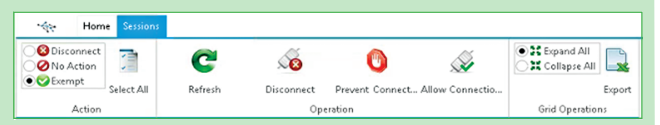

Identify and clear locked records

Available as a "view only" application

Dynamic grid display of user connections

REDUCE DATA INTEGRITY ISSUES BY MANAGING USER ACCESS WITH EASE

TECHNICAL SPECS

- Desktop deployment and installation via electronic download
- Oracle databases
- Oracle Client
- .Net Framework 4.5 or higher
- Windows 7, 8, 10
- MS Office or MS Excel 2007, 2010
- 4G of RAM

Included in your download, you receive:

- Installation manual, including system requirements
- Installation media
- One year license key
- User manuals

Technical Support:

- Monday to Friday (excluding statutory holiday), 8am – 5pm MST
- support@cooleycore.com

CooleyCore provides free set-up support
