beaconsuite²

RAPIDLY ASSESS, TRANSFORM, AND SYNCHRONIZE DATA

Trusted Data Saves Schedule & Money

Tear down information silos and build confidence in your data with Beaconsuite[™] Sync. Sync saves time and money for all sizes of companies by efficiently assessing multiple systems at once and generating load files for importing.

Beaconsuite[™] Sync significantly reduces work / rework resulting in efficient data / record alignment between different systems. Sync's rule engine enables clients to configure business rules specific to their needs. The built-in data transformation engine transforms data enabling each system to remain independent without the need to normalize. The Beaconsuite[™] Sync solution enables companies to align information in a cost-effective manner.

Configure business rules that assess and validate data in the source systems (e.g. SPI to SPI) or across systems (e.g. SPI to SAP to SPF) o—o

Transform data source across multiple systems to make it comply with the target systems

Generate customized load files to accommodate the target system requirements

Retain run results within the Beaconsuite Sync database for future use.

Exclude legacy data from future audits to reduce nuisance reporting (exclusions can be reversed)

TRANSFORMATION RULE CONFIGURATION INTERFACE

Analysis and recommendations for aligning systems

- Desktop deployment and installation via electronic download
- o Oracle and MS SQL Server databases
- .Net Framework 4.5 or higher
- Windows 7, 10
- MS Office or MS Excel 2007, 2010
- o 4GB of RAM

Included in your download, you receive:

- Installation manual, including system requirements
- o Installation media
- One year license key
- User manuals
- Free setup support
- A comprehensive warranty

Technical Support:

- Monday to Friday (excluding statutory holidays), 8am – 5pm MST
- Support@cooleycore.com

For more information or to purchase visit:
