

SEARCH & REPLACE DATABASE DATA

Find What You Are Looking for and Update It!

Beaconsuite™ Smart DBsearch is a powerful application that saves companies hundreds of hours when searching and updating information buried deep within complex relational databases.

Use Smart DBsearch to:

- drive data consistency
- re-tag tags and other unique identifiers post data replication e.g. update all references of 8010 with 8011
- track user activity; this can be realized permitting the user name is captured on records when making changes
- identify key fields that need to be included in queries

Beaconsuite™ Smart DBsearch saves projects time, costs, reduce monotonous work and produces higher quality deliverables.

BENEFITS

Save hundreds of hours. Search for and update data quickly within the most complex relational databases e.g. Search for 'deg C' and replace with '°C'

Searches for data with precision. Users can apply advanced filter constraints to bring back only the most relevant data

Build quality advanced queries by identifying data patterns e.g. what records, fields, tables contain key information

Intuitive easy to use preview interface enables users to safely and quickly make decisions around what data should be updated

FEATURES

Flexibility to search and replace data in specific tables and fields or all tables and fields

Designed to import settings from an MS Excel file for mass data searches and updates

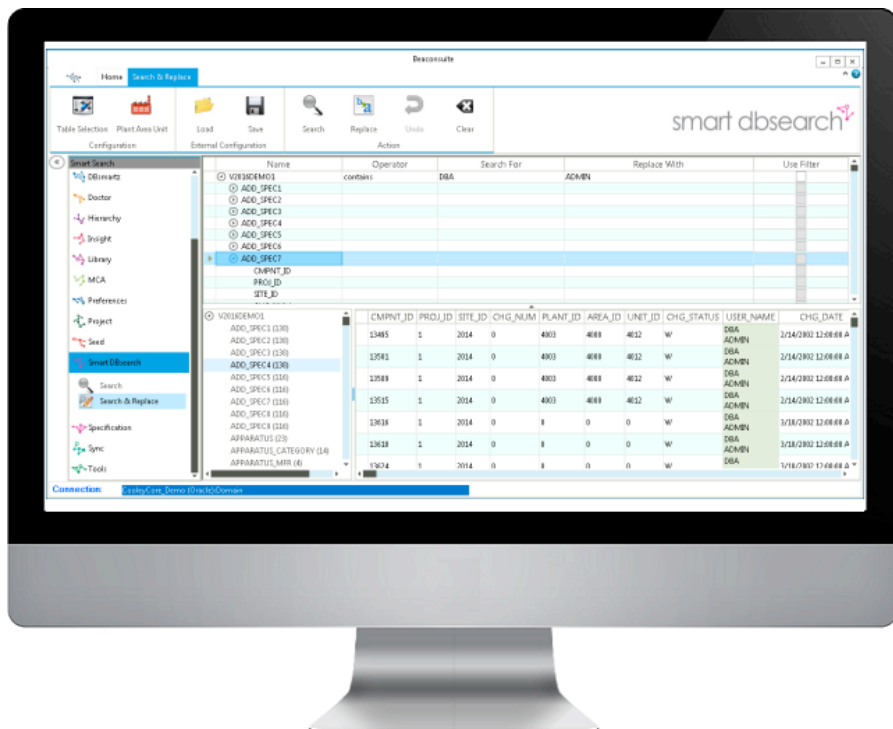

Advanced filter settings can be applied on per field basis. All settings can be saved out for future use

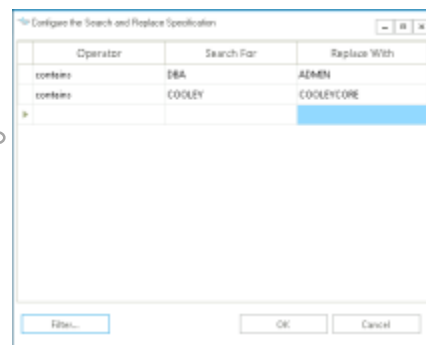

SPI users can filter searches on Project, Plant, Area, Units, and SPI modules e.g. Wiring tables

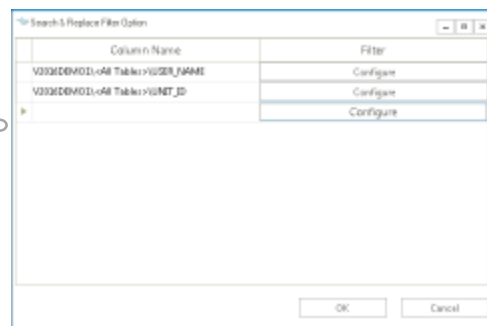

All located findings and suggested updates highlighted in a preview interface making it easy to make quick decisions

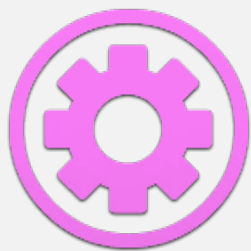

Preview search and replace results prior to running the update

SEARCH & REPLACE

TECHNICAL SPECS

- Desktop deployment and installation via electronic download
- Oracle and MS SQL Server databases
- .Net Framework 4.5 or higher
- Windows 7, 10
- MS Office or MS Excel 2007, 2010
- 4GB of RAM

Included in your download, you receive:

- Installation manual, including system requirements
- Installation media
- One year license key
- User manuals
- Free setup support
- A comprehensive warranty

Technical Support:

- Monday to Friday (excluding statutory holidays), 8am – 5pm MST
- Support@cooleycore.com
