

QUICKLY ASSESS SPI STANDARDS ACROSS MULTIPLE SPI DOMAINS

STANDARDIZE THE SPI EXPERIENCE - IDENTIFY CHANGES

Beaconsuite™ Standards Manager assists companies in their drive to provide a consistent SmartPlant Instrumentation (SPI) user experience across the company (across multiple domains/databases); simplifying the way users generate and deliver SPI deliverables.

It is now possible to have projects work with an offline copy of your corporate standard and feel confident that you can monitor the project changes to the standard; just request a periodic copy of the database and run Standards Manager to identify all changes.

Beaconsuite™ Standards Manager reduces the need for high end expertise, saves time and makes it simple to assess the alignment of SPI standards.

BENEFITS

Quickly (within a few minutes) assesses the alignment of standards across two different databases; without this application, it would take dozens of hours to do the same assessment

Excellent application to be used to determine if how much work would be required in order to merge (blend) different SPI databases

Non-conformances between the two databases can be reviewed and approved (if required)

Assess high priority standards separate from low priority standards

FEATURES

Dashboard includes pie charts and a bar chart that quickly summarizes the current standards alignment status

Click on a bar within the bar chart to see the records that make up the counts

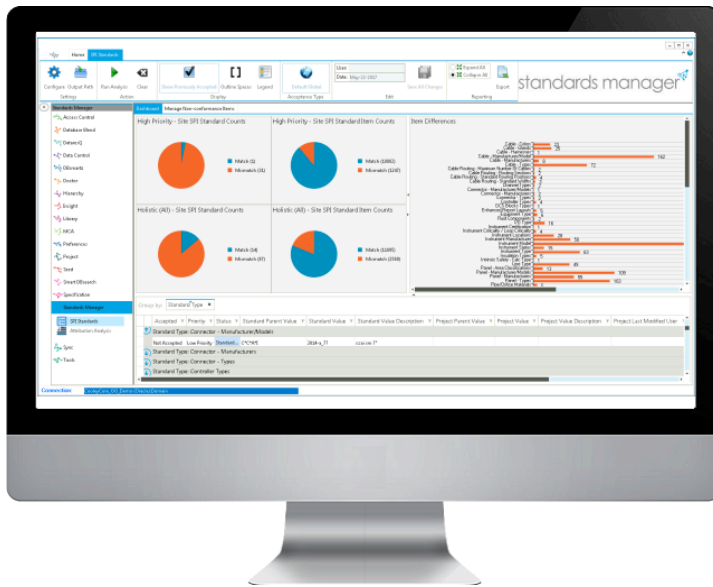

Export the dashboard graphs and results to MS Excel

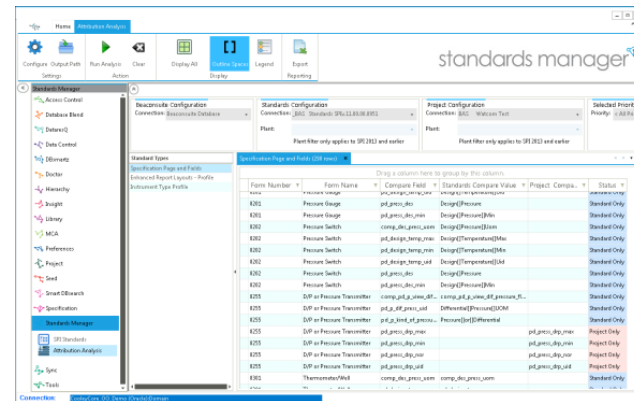

Approve and unapproved non-conformances per domain

Easy to use MS Excel like results grid, which enables easy filtering and grouping of results

Simple interface designed for all to use

**EASILY REVIEW HUNDREDS OF
ATTRIBUTE DIFFERENCES**

TECHNICAL SPECS

- Desktop deployment and installation via electronic download
- Oracle and MS SQL Server databases
- .Net Framework 4.5 or higher
- Windows 7, 10
- MS Office or MS Excel 2007, 2010
- 4GB of RAM

Included in your download, you receive:

- Installation manual, including system requirements
- Installation media
- One year license key
- User manuals
- Free setup support
- A comprehensive warranty

Technical Support:

- Monday to Friday (excluding statutory holidays), 8am – 5pm MST
- Support@cooleycore.com
