# beaconsuite™ PROJECT

SmartPlant® ENABLED

MANAGE SPI PROJECTS WITH AWARENESS; PROTECT YOUR PLANT & PROJECT DATA

SmartPlant® Enabled

Identify critical changes and increase the quality and accuracy of the information available to field operations, removing risks that may impact projects and employee safety.

Beaconsuite™ Project will alert you if requested information is claimed to a different project, reducing the frequency of concurrent engineering. Report warnings to effectively manage, update, close out and merge projects into your SmartPlant® Instrumentation As-Built section. Monitoring and reporting capabilities to quantify the complexity of pending project close outs thereby enabling accurate budgeting and timelines.

More importantly, understanding open and pending projects through Beaconsuite™ Project protects facility operations and employee safety by providing the most up to date information at the moment it is needed.

BENEFITS

Protect your data integrity by tracking high risk project changes

Improve on-site safety by reducing concurrent engineering

Ensure field employees have the latest information

Improve efficiency by identifying low risk projects that can easily be closed

FEATURES

Quickly and effectively report all Owner/Operator projects

Display number of active and inactive projects

Identify projects that share data and which assets are shared

Quantify project close out complexity, including claimed, deleted and renamed assets
